CGEC GEARS UP FOR 3D PRINTING REVOLUTION WITH ADDITIVE MANUFACTURING WORKSHOP

Cooch Behar Government Engineering College (CGEC) is poised to usher in a new era of innovation with the establishment of a state-of-the-art Additive Manufacturing (3D Printing) lab. To introduce Students to this transformative technology, the college recently hosted a highly informative workshop on February 18th, 2025

The workshop, attended by a diverse group of students and faculty, provided a comprehensive overview of additive manufacturing principles, applications, and the exciting opportunities it presents. This initiative is part of a larger Indian government-backed project, spearheaded by DGM P. S. Mitra, aimed at fostering technological advancement and skill development in the region. The project is an effort by Webel, funded by Ministry of Electronics and Information Technology (MEitY), who are providing the 3D printing equipment and expertise.

SARASWATI PUJA AT CGEC.

MOTHER TONGUE CELEBRATED BY CREATIVE PENS

On the eve of 21st February, International Mother Language Day, the atmosphere at Cooch Behar Government Engineering College (CGEC) was filled with the warmth of linguistic pride as Creative Pens celebrated "Matrihasha Dibosh." The event was a heartfelt tribute to the sacrifices made for the preservation of one's mother tongue, with an array of literary and artistic performances showcasing its cultural significance.

The members of Creative Pens mesmerized the audience with evocative recitations and thought-provoking writings, paying homage to the essence of their native language. Adding to the vibrancy, other clubs of CGEC also contributed to the celebration. Melodies captivated everyone with soulful musical performances, while Pratibimba, the theatre club, delivered a compelling drama highlighting the importance of mother tongues in shaping identity and

heritage. Nritya Nirvana further elevated the evening with a mesmerizing dance performance, leaving the spectators spellbound.

A major highlight of the event was the felicitation of the Winners and Runners-up of prestigious literary and creative competitions—"Benami," "Chhandak," and "Srijani." The honors were conferred by Prof. Dr. Sourav Chakraborty, recognizing the exceptional talents who

brought their linguistic creativity to life. The celebration reached its pinnacle with an inspiring address by the Principal, Dr. Prabal Deb, who eloquently emphasized the significance of preserving and cherishing one's mother tongue. His words resonated deeply, leaving an indelible mark on the audience.

As the evening drew to a close, Srijit Chakraborty, the coordinator of Creative Pens, expressed heartfelt gratitude to everyone who contributed to the success of the event.

This celebration not only honored linguistic diversity but also strengthened the bond among students, fostering a deeper appreciation for their roots and heritage. Through such initiatives, CGEC continues to nurture creativity, cultural awareness, and artistic expression, ensuring that the legacy of language, tradition, and identity thrives across generations, inspiring future storytellers and artists.

Under the capable incharge of Dr. Palash Das, HOD of the ECE department, and the guidance of Principal Dr. Prabal Deb, CGEC is committed to providing students with hands-on experience in this cutting-edge field. The new lab, equipped with advanced 3D printers, will serve as a hub for innovation and research, enabling students to explore the vast potential of additive manufacturing.

The workshop highlighted the diverse applications of 3D printing, ranging from rapid prototyping and product development to customized medical implants and architectural modeling. Students were introduced to various 3D printing technologies, including Fused Deposition Modeling (FDM), Stereolithography (SLA), and Selective Laser Sintering (SLS), and learned about the materials used in additive manufacturing.

Recognizing the importance of practical training, Webel and Monotech, the supplier assigned by the manufacturer side, will be conducting a comprehensive 6-month training program for students. This program, offered at a minimal fee of one thousand rupees, will provide students with in-depth knowledge and hands-on experience in 3D printing technologies, software, and applications. The training will be conducted in batches, ensuring personalized attention and effective learning.

The establishment of the 3D printing lab and the associated training program will empower CGEC students with valuable skills that are highly sought after in today's rapidly evolving job market. This initiative will not only enhance their employability but also foster a culture of innovation and entrepreneurship within the college.

wearing traditional attire, adding to the cultural essence of the celebration.

The puja rituals were conducted in a beautiful and disciplined manner, with the chanting of mantras and offerings of flowers and sweets to the goddess. The entire atmosphere resonated with devotion as students sought blessings for academic success and wisdom. The sense of togetherness and shared faith made the occasion even more special.

Even though there were no large-scale events or cultural programs, the spirit of the festival was evident in the enthusiasm of students. Many students expressed their devotion through poetry, art, and personal reflections on the significance of Saraswati Puja in their academic journey. Social me-

dia platforms were flooded with heartfelt posts, pictures, and messages dedicated to the occasion, showcasing how deeply the festival is cherished by the CGEC community.

Prasad distribution was an essential part of the celebration, with sweets and fruits being shared among students and faculty. The distribution of prasada symbolized unity, as students from different backgrounds came together to partake in the blessings of the goddess.

The festival provided a moment of peace and reflection for students amidst their academic commitments. It was a time to pause, seek blessings, and reignite their motivation to strive for excellence. The puja reinforced the belief that devotion and faith only require a sincere heart.

TECHNOVISTA: 3 DAYS OF CUTTING-EDGE INNOVATION

DAY 1: TECH-QUIZ AND CODE-A-THON

On the first day of Technovista- The Multitech challenge online event, Tech-o-Nicks organized two exciting competitions --- Tech-Quiz and Code-a-Thon --- on 29th January, 2025. The competitions saw participation from students across various departments and were a great opportunity for them to test their technical skills and knowledge. The contests aimed to promote technological awareness and inspire students to dive deeper into the world of technology. Both the Tech-Quiz and Code-a-Thon were designed to evaluate participants' skills in various fields, including programming, algor-

ithms, artificial intelligence, and general tech knowledge. The Tech-Quiz competition was conducted in three rounds. The questions were laid out accordingly to cover a wide range of topics related to technology and physics to assess the participants' knowledge of those fields. Debojit Sarkar (1st-year CSE department) secured first place, while Satyajit Roy (1st-year CSE department) finished as the runner-up.

The Code-a-Thon evaluated participants' ability to solve problems, code efficiently, and perform effectively under pressure.

Subhradeep Deb secured first place, while Anirudha Ghosh finished as the runner-up in the event. Innovation and learning were central themes in both contests. The contestants were left inspired, eager to continue sharpening their skill

Tech-o-Nicks organised the online events CircuitQuest and CraftyCad on the second day of Technovista. The events, held on 30th January, focused on circuit design and AutoCad design respectively. The contests challenged participants to push their innovative boundaries and apply their knowledge to real-world scenarios.

The CircuitQuest included four circuits to be designed by the contestants, followed by a Google Meet session where they had to explain the designs to the judge panel. The circuit design competition aimed to test students' conception of electrical components, circuitry and problem-solving skills. The CircuitQuest was an incredible opportunity for the students to try out their skills. The esteemed judge panel evaluated the practicality, creativity and efficiency of the designs. Debojit Sarkar, a first-year student from the CSE department, claimed the title of champion, while Chayan Barman, a first-year student from the Mechanical department, secured the runner-up position.

CraftyCad, the next event, aimed to evaluate students' AutoCad skills through design.

The students were provided a couple of problems, and then an interactive session was arranged. The competition brought the students together to showcase their proficiency in computer-aided design. The event addressed the creativity of participants' along with their drafting capability. The winner of the competition was Subhrowjyoti Barman (2nd year, Civil department)

while another 2nd year from Civil department, Sujoy Dey, became the runner-up. The top-

performing first-year student was Sudipa Pal from Mechanical department. The judging panel evaluated the submissions according to criteria such as accuracy, design aesthetics, and complexity. The events were resounding successes, and they encouraged the students to think creatively about how technology can be used to address contemporary challenges.

Dev Draw 2.0, hosted by Tech-o-Nicks on the third day of Technovista (31st January), celebrated creativity, technical skill, and innovative problem-solving in web development. This event brought together aspiring developers, creative designers, and enthusiastic problem-solvers, offering a real-world opportunity to bridge theoretical knowledge with practical application.

The competition revolved around four challenging problems, each designed to inspire contestants to think outside the box while adhering to core web development principles. Participants selected one problem and built a website that not only tackled the challenge but also showcased their unique design perspectives and technical prowess. This approach resulted in a diverse array of projects, each highlighting innovative solutions and creative approaches to modern web design.

Both novices and experience developers took part, creating an atmosphere where fresh ideas mingled with seasoned insight. Under tight deadlines, the contestants made swift decisions on layout,

design, and functionality, demonstrating their ability to work effectively under pressure. Their projects prominently featured essential web technologies such as HTML, CSS, and JavaScript. Many participants also incorporated

adaptive design techniques ensuring that their websites provided an optimal user experience across various devices and screen sizes.

The evaluation process was thorough and fair, conducted by a panel of esteemed judges

who assessed the projects based on technical complexity, creativity, visual design, and overall user experience. This rigorous judging not only determined the winners but also offered constructive feedback to all

participants. Among the standout performances, Rajat Mondal, a first-year student from the CSE department, clinched the winner's title with his project that balanced technical excellence and creative innovation. Following closely was Satyajit Roy, also a first-year CSE student, who secured the runner-up position with an equally impressive website.

Beyond the competitive aspect, Dev Draw 2.0 served as an invaluable educational experience. It encouraged participants to experiment with new ideas, collaborate with peers, and confront real-world challenges in website development. The event mimicked the dynamic environment of professional tech projects, helping students to enhance their technical skills, refine their design sensibilities, and boost their confidence in problem-solving.

BRINGING ART TO LIFE: LIVE FIGURE SKETCH WORKSHOP BY RONGMILANTI ART CLUB

A sense of community and shared learning was palpable at the Rongmilanti Art Club's Live Figure Sketch Workshop, where students of all skill levels came together to sharpen their drawing skills. The workshop saw enthusiastic participation from students of every department. Conducted on February 17th, the workshop provided students with opportunities to refine their sketching techniques, study anatomical representation in art, and produce expressive figure drawings. The session began with a lead-in on the importance of figure drawing as a foundation for mastering other artistic forms. The participants were briefed on different techniques of live figure sketching. The students were then supplied with a basic and a moderate figure to sketch.

The organizers and coordinators guided participants in human figure sketching using diverse techniques, stressing on observation, proportion, and gesture. Students, particularly those starting out, were able to learn live figure sketching through a combination of direct experience and thorough instruction.

The Live Figure Sketch Workshop was an enormous success. Not only did it provide valuable skills to the students, but it also set an example of community in the creative process. The workshop offered budding artists a valuable chance to hone their skills in a supportive and collaborative environment.

BOITHOK: A GATHERING WHERE WORDS FIND THEIR VOICE.

In a world that often rushes past the beauty of words, the Creative Pens Club brought together a group of literary minds in an enchanting evening called Boithok. It was more than just a gathering; it was a celebration of thoughts, poetry, and storytelling, where words flowed freely, weaving a tapestry of emotions and creativity.

The event welcomed all enthusiasts who loved words and the art of expressing it, all bound by their shared love for literature. The ambiance was warm, and filled with the soft hum of conversations that revolved around poetry, prose, and the art of storytelling. Some participants recited their favorite pieces, while others shared original works, letting their voices paint emotions that resonated deeply within the audience. One of the most memorable aspects of they evening was the effortless blend of experience and fresh perspectives. Seasoned writers shared their wisdom, while poets express themselves in front of an encouraging audience.

Laughter and introspection coexisted as 6 discussions spanned from classic literature to contemporary narratives, proving that words have the power to bridge generations and perspectives. As the evening drew to a close, the essence of Boithok lingered—an unspoken promise of many more such gatherings where words would continue to dance and emotions would find their voice. It was not just an event but an experience, leaving everyone with inspiration in their hearts and a longing for a event like this again

DHWANI 4.0: A CELEBRATION OF MUSICAL TALENT AT CGEC.

Music has always been a universal language that transcends boundaries, and Coochbehar Government Engineering College (CGEC) continues to uphold this spirit through its much-anticipated event, Dhwani 4.0. Organized by Melodies of CGEC. This event serves as a platform for music enthusiasts to showcase their talents in a unique and engaging format.

Dhwani 4.0 invited students to record high-quality videos of their musical performances, encompassing various genres and styles. Whether it was soulful singing, intricate instrumental,performanc es,electrifyingbeatboxing, or dynamic rapping, participants had the opportunity

for their musical prowess but also fostered a vibrant and supportive musical community within the college.As the event gains traction, anticipation builds among participants and audiences alike. The results are yet to be announced, and excitement fills the air as everyone eagerly awaits to see which performances will be showcased.

Regardless of the final selections, Dhwani 4.0 stands as a testament to the immense passion for music..These submissions were then to the evaluation and curation.The best entries were carefully selected and reinforcing the belief that music has the power to connect, platforms.This initiative not only inspire, and elevate provided an avenue for students to gain the human spirit. recognition

CGEC HOSTS VITAL REFRESHER TRAINING FOR NIRMAN SAHAYAKS, STRENGTHENING RURAL DEVELOPMENT.

CGEC recently played a pivotal role in bolstering rural development by hosting a comprehensive refresher training program for Nirman Sahayaks. The three-day event, held from February 4th to 6th, 2025, focused on diverse engineering issues, with a particular emphasis on innovative schemes related to central facility building.The program, sponsored by the Institutional Strengthening of Gram Panchayats (ISGP) Program, Panchayats & Rural Development Department, Government of West Bengal, was meticulously organized by CGEC's Civil Engineering Department. This collaboration underscored the college's commitment to extending its expertise and resources to support local governance and infrastructure development. The training aimed to equip Nirman Sahayaks, crucial figures in rural construction and development, with updated knowledge and practical skills.

The curriculum covered a wide range of engineering topics, including: Modern Construction Techniques: Emphasizing sustainable and cost-effective building practices; Quality Control and Assurance: Ensuring adherence to engineering standards and specifications; Innovative Scheme Implementation:

Focusing on the efficient execution of central facility building projects; Problem-Solving and Troubleshooting: Addressing common engineering challenges encountered in rural settings. Professors from CGEC's Civil Engineering Department led the training sessions, sharing their extensive knowledge and practical insights. The program incorporated a blend of theoretical lectures, interactive workshops, and practical demonstrations, fostering an engaging and effective learning environment. The success of the program underscores the importance of collaboration between academic institutions and government agencies in driving rural development. CGEC's initiative has not only strengthened the capacity of Nirman Sahayaks but also reinforced the college's role as a vital resource for the region.

VALENTINE'S DAY LETTER WRITING COMPETITION: A CELEBRATION OF WORDS AND EMOTIONS

The Creative Pens club, the literary soul of Cooch Behar Government Engineering College, celebrated Valentine's Day in the most heartfelt way—by letting words weave the magic of love and compassion. The Valentine's Day Letter Writing Competition provided a stage for students from all branches and years to express their emotions through the art of letter writing. This competition was more than just an event; it was a celebration of creativity, emotions, and the power of words. Participants poured their hearts onto paper, crafting letters that resonated with depth, passion, and sincerity. Each entry reflected a unique perspective on love—be it romantic, platonic, or self-love—making the judging process an incredibly challenging task. After a fierce and inspiring contest, the winners were unveiled on 16th February. Roopam Barman (3rd year, CSE) claimed the gold, mesmerizing the judges with his extraordinary writing skills and profound storytelling. The silver was shared by two exceptional writers—Arijit Sinha Mahapatra (2nd year, ECE) and Tamanna Mishra (2nd year, CSE)—whose eloquent expressions of love and emotion captivated all.

The bronze was jointly secured by Soumadeep Das (1st year, CSE) and Sudipa Paul (1st year, ME), both of whom displayed remarkable literary finesse. The competition was a true testament to the creative brilliance of CGEC students, proving that the power of words is timeless. Creative Pens continues to foster a space where budding writers can explore their artistic potential, one word at a time.

EMERGING CHAMPION IN LOGO DESIGN

Rongmilanti Art Club, the artistic heart of Cooch Behar Government Engineering College, recently hosted an exhilarating Logo Redesign Competition. The event saw enthusiastic participation from students across all branches and academic years, each bringing their creativity and design prowess to the forefront.

After a rigorous contest showcasing exceptional talent, Shanniddho Dutta Choudhury, a first-year CSE student, emerged victorious. His outstanding graphic design skills and artistic vision set his creation apart, earning him the top spot in this intense competition. In recognition of his excellence, the winning logo has been officially adopted as the club's new emblem, marking a milestone in the club's visual identity.

This innovative design inspires pride and unity, effectively setting the stage for future creative achievements.

The winner of the Logo Designing competition is Sannidhyo Datta Chaudhuri(CSE,1st Year). This is the logo designed by Sannidhyo and it is to be adopted by RONGMILANTI (CGEC ART CLUB)

মগজASTRA 2.0: A REPUBLIC DAY SPECIAL QUIZ

Quizlaxy club of Coochbehar Government Engineering College (CGEC), successfully organized its grand quiz event, মগজASTRA 2.0, on Republic Day, January 26. The competition witnessed enthusiastic participation from students across various departments, all eager to put their knowledge to the test. The preliminary round was conducted on Quizizz.com, where participants received the link and code via Google Meet. The quiz covered a diverse range of topics, ensuring a true test of intellect and awareness. The pattern included multiple-choice questions (MCQs) and single correct answer questions, with a +1 for each correct response and 0 for unanswered ones.

Additionally, a few star-marked questions carried extra importance, prioritizing participants who answered them correctly. After a tough battle in the prelims, the finalists moved on to the ultimate round, where they faced intense competition. The winners of মগজASTRA 2.0 were:

1st Place: Sunanda Sau (EE, 1st Year)

2nd Place: Chayan Mukherjee (CSE, 1st Year)

3rd Place: Pranay Hazra (CE, 1st Year)

Special Mention was honoured to ayan roy for giving the most answers as an audience

A special mention was given to Ayan Roy (CSE, 1st Year), whose impressive knowledge and active participation as an audience member earned recognition.

The event showcased the students' passion for quizzing and the spirit of intellectual competition. মগজASTRA 2.0 was not just a quiz—it was a celebration of curiosity, learning, and the thrill of knowledge. The CGEC community eagerly looks forward to the next edition of this exciting event.

CGEC'S FOOTBALL FEVER: "LA RECONQUISTA DEL GOL"

CGEC's "LA RECONQUISTA DEL GOL" football auction on February 24th, 2025, sparked immense excitement. From 2 PM to 6 PM, talented student footballers were auctioned off to four distinct teams, each captained by a final-year student. This first-of-its-kind event at CGEC aimed to build camaraderie and showcase the college's football talent. The strategic bidding and

friendly rivalry created an electrifying atmosphere, as captains meticulously selected players to form balanced and competitive teams. The CGEC Sports Club expressed great satisfaction with the event's success, highlighting its role in strengthening student bonds and boosting the college's football culture. The auctioned players are now set to participate in upcoming inter-team matches, promising thrilling displays of skill and sportsmanship.

TEST YOUR BRAIN

QUESTIONS

⚡🦸👑 - Famous Superhero Character

💡📞📄 - One of the finest inventor and businessman of 19th century

🎬🏆👤 - His first film released in 1955. Part of one of the greatest trio of directors of Indian cinema

🚀🇮🇳 - Launching dreams beyond the sky, India's pride, aiming high!

🕶️🇮🇳 - Led an army beyond borders, vanished like a mystery

⚽👤🏆 - A magician without a wand, conquered the world with his feet, but his journey began in Rosario

⚙️🔧🔧 - Masters of motion and machines, they turn forces into innovations, shaping the world one gear at a time. Identify this engineering branch

🎧🎵🇮🇳 - Riding the waves of sound, this brand brings bass-heavy beats with a name that floats, identify this music/electronics brand

🤖🧠💬 - I learn, I think, I predict—yet I have no life of my own. What is the name of this technology

🦏🌴👑 - Silenced a billion voices, and lifted their sixth crown

HIDATO

A fun Japanese grid-based puzzle game designed to sharpen your **logical reasoning** and **problem-solving** skills.

16		18		25
	17		19	24
12		1		
11		7		4
	9		5	

Rules:

- The numbers must be placed in order from the smallest to the largest.
- Each number must be adjacent to the previous number (vertically, horizontally, or diagonally).
- Some numbers are pre-filled to help guide you. Solve the puzzle and find the correct sequence!

THE MONKEY AND THE CROCODILE

THE MORAL
FRIENDSHIP IS ALL ABOUT TRUST

HIDATO SHOWDOWN

How to play?

Fill in the boxes with the missing numbers from 1 to 25, so that each number connects to the next number either horizontally, vertically, or diagonally."

QUILAXY

THE ARABIC SOURCE OF SCIENCE

The word ALGEBRA finds its origins in the medieval Arabs. Around 820 CE, a book written by Muhammad ibn Musa al-Khwarizmi, named "al-Kitāb al-Mukhtaṣar fī Ḥisāb al-Jabr wal-Muqābalah" or "The Compendious Book on Calculation by Completion and Balancing" showcases one of the earliest concepts of "al-Jabr", which later transformed into "Algebra". This book included approximations of π , systematic method for solving linear and quadratic equations. This also provides the origins of many of many words in fields of science, like "Alchemy" from "al-kīmiyā", "Alcohol" from "al-kuḥl" etc. Here the prefix "al" means "restoration".

BEST WRITING

আমি নারী

আমি নারী
ওরা বলে, আমি সব পারি।
সত্যিই কি আমি সব পারি?
আমি নারী,

আমার রূপ রক্তচন্দনের মতো তীব্র, শ্বেতকমলের মতো শুভ্র আমার পবিত্রতা, আমার গর্ভ থেকে জন্মেছে সমস্ত সৃষ্টি।

পতির সেবায় আমি হয়েছি অহল্যা,
সমাজের কল্যাণে যজ্ঞে জন্মেছি দ্রৌপদী হয়ে,
অর্ধাঙ্গিনী রূপে সীতা, কখনও এসেছি সতী নামে।
তবুও আমি অপবিত্র, ভোগ্যপণ্য, দাসী।

আমায় শুদ্ধতার প্রমাণ দিতে হয়েছে অগ্নিসংযোগে,
আমার সম্মান হরণ করেছেন স্বয়ং দেবরাজ,
লাঞ্ছনা আর অপমানে, আমি হয়েছি ছিন্নভিন্ন
কই? আমি তো আটকাতে পারিনি।
আমি নারী,

সভ্যতার প্রগতিতে আমারও সমান অধিকার, পুরুষের সাথে কাঁধে কাঁধ মিলিয়ে চলেছি আমিও, গৃহস্থের ভার গ্রহণ করেছি গৃহিণী হয়ে।

তবুও নির্যাতিত, নিপীড়িত হয়েছি বারবার।
আমি রমণী, যারা সম্মতিতে ব্যবহৃত হয় রমণে
আর অসম্মতিতে হয় হিংস্র দাঁত, ধারালো নখের শিকার।

আমি সেই কন্যা, পরিবারের পাশে দাঁড়াতে
যাকে পরিশ্রম করতে হয় দিনরাত এক করে, আর
তিলোত্তমা হয়েও, যাকে তিলে তিলে
অবলীলায় নিঃশেষ হতে হয়।

আমি সেই নিয়তি, যার জন্য
মিটিং - মিছিল - প্রতিবাদ সবই বৃথা।
যার পরিণতিতে অভ্যস্ত দিল্লি থেকে হাথরাস পুরো
পৃথিবী। কই? আমি তো নিজেকে রক্ষা করতে পারিনি।
কিন্তু, আমি নারী।

আমি পারি ফিরে আসতে, প্রগাঢ় সাহস নিয়ে।
অসুর বিনাশে মহিষাসুরমর্দিনী হয়ে,
অথবা করালবদনের ভয়ঙ্করী শ্যামা হয়ে আমি ফিরতে
পারি, অনায়াসে দণ্ড হয়ে,
শঙ্কর তমসা হতে আশার অগ্নিশিখা হয়ে।
কারণ আমি নারী, আমি সব পারি।
